

SYED WASI AKBAR

Frontend & Mobile App Developer | React.js & React Native

+92 318 6444766 syedwasiakbar@gmail.com LinkedIn GitHub Portfolio
Model Town Okara, Punjab 56300

PROFESSIONAL SUMMARY

Frontend & Mobile App Developer with 1 year of experience building scalable, responsive web and mobile applications using React.js, React Native, and Firebase. Proven track record delivering production-grade UIs, real-time data-driven dashboards, and cross-platform apps through both industry and freelance client work. Skilled in REST API integration, component architecture, and shipping polished user experiences end-to-end.

EDUCATION

University of Agriculture <i>Bachelor of Science in Computer Science (CGPA: 3.5)</i>	Faisalabad, Pakistan 2022 – 2026
Punjab Group of Colleges <i>FSc Pre-Engineering</i>	Okara, Pakistan 2021 – 2022

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, HTML5, CSS3
Frontend: React.js, React Native, Tailwind CSS, NativeWind, Bootstrap
Backend & Database: Firebase (Firestore, Auth), Node.js, REST APIs
Tools & Platforms: Git, GitHub, VS Code, Vercel, Expo, Expo Router, OpenAI API
Concepts: Component Architecture, Context API, Responsive Design, Role-Based Access Control, API Integration

EXPERIENCE

Frontend & Mobile App Developer <i>Devisgon (Pvt) Ltd</i>	July 2025 – Aug. 2025 Okara, Pakistan (On-site)
– Developed scalable frontend architectures using React.js and React Native for SaaS applications.	
– Built and maintained 50+ responsive screens with REST API integrations and reusable component systems.	
Frontend & Mobile App Developer <i>Deepoxy Logics</i>	Mar. 2026 – Apr. 2026 Faisalabad, Pakistan (On-site)
– Built and styled responsive UI components in React.js and React Native for client-facing web and mobile products.	
– Integrated REST APIs and Firebase services to support real-time data flow across app modules.	

PROJECTS

University LMS <i>React.js, Vite, Firebase</i>	Live GitHub
– Built a dual-role LMS with Student and Admin portals, guarded by role-based access control (RBAC).	
– Implemented real-time Firestore sync for GPA tracking, attendance, and an admin scheduler/analytics dashboard.	
Employee Task Management System <i>React.js, Context API, Vite</i>	Live GitHub
– Built a role-based task system with Admin and Employee portals; live task assignment and status updates.	
– Designed a dark-themed animated UI using localStorage for full data persistence with no backend required.	
Blue Route Logistics <i>HTML, CSS, JavaScript, WhatsApp API</i>	Live
– Developed a responsive logistics services website with WhatsApp API routing for direct client communication.	
Personal Portfolio Website <i>React.js, Tailwind CSS, Vercel</i>	Live
– Designed a modern portfolio site with CI/CD via GitHub for automatic redeployment on every push.	
UG Form Management System (Mobile App) <i>React Native, Expo, Firebase</i>	GitHub
– Built a mobile app digitizing UAF's UG form submission with Student and Admin modules and real-time status updates.	
– Developed an admin dashboard for semester filtering, student search, course/credit-hour management, and approvals.	
Fitness & Wellness Tracker (Mobile App) <i>React Native, Expo, TypeScript</i>	GitHub
– Built a wellness app with a custom SVG mood wheel, 8-week workout programs, and macro-nutrient tracking.
